Rick,  
Dan and I would like to discuss at our general today to be sure we understand more clearly the 100% repack option. We are still engaging with OGC to get their take on how viable the 24c option is, and are also engaging with the state of California to understand where they are.  
Donna

Sorry for all the inquiries this morning.

**Ex. 5 Deliberative Process (DP)**

How long would that take if the registrant chose that option?

Hi Mike –

I just wanted to update you on the call IVB2 and MUEB had with OGC regarding tolfenpyrad. The use on citrus has not been approved yet in California and the state is wondering if they could submit a 24(c) registration that is more restrictive than the Section 3. We spoke with both Erin Koch and Scott Garrison.

Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

Let me know if you have any questions.

Mike:

Here's some additional insight from what Debra found out from an earlier voicemail (4/29) response from Margaret Reiff in CA. As Bo indicates, we'll work with OGC to determine the legal possibilities.

Marion J.

Hi Marion,

I had a voicemail waiting for me this morning from Margaret Reiff. She gave a quick run down of the tolfenpyrad issue. It seems that the Section 3 registration in CA for tolfenpyrad is still in process as they are working on a CA only label for Citrus. They have concerns for ecotox and also aquatic concerns. The process for this registration is unlikely to meet the needs of the coming use season.

They are considering 24(c) options, but are unsure as the CA state label will be more restrictive. If they do try the 24(c) SLN for this citrus use, they would send a draft of the labeling to EPA before they issued it.

Marg is out today, but I can follow up with her on Tuesday as needed.

Rick was contacted by CA citrus about whether there is an option for a 24c for tolfeenpyrad since it is not registered in CA.  
Apparently CDPR is still evaluating it and they need to have a public process for their registration decision – whatever it is.  
I mentioned it to Bo yesterday and suggested he get with IVB2 and that OGC be consulted as well.  
First let's see if this is an option or not and then report back to Rick who can then follow up with CA citrus.

OK, thanks Marion.

Mike, Did Rick raise a specific issue with you about Tolfeenpyrad and CA yesterday?

Donna,

Other than a minor labeling inconsistency issue, which I mentioned briefly to Dan R today in passing, we are not aware of anything. Debra has made a call to her CPDR contact to get a "heads up" to see if there is anything brewing in CA, as well. At the moment, we haven't heard back from CA, but we'll keep you apprised if we do.

MJJ
